THE present Catalogue aims to be more than a list of the books in the Society's Library. Each book is entered—1st, under the author's name, with the title usually reproduced in full; 2nd, under its proper subject, the title being abbreviated, the place of publication, the date, and size omitted. In the same general alphabet is included an index to the important papers in all the numismatic periodicals published in America, and to the numismatic articles in the Historical Magazine and Magazine of American History.

The author's name is printed in small capitals in all author-entries, and in italics under the subjects. Heavy faced type has been used for the initial portion of subject-headings.

The size of the books is indicated according to the scale adopted by the American Library Association.

Mr. W. T. R. Marvin, of Boston, has kindly revised the proof sheets, and has offered many valuable suggestions which add greatly to the value of the catalogue.
